REAL PROPERTY  
(501) 279-6208

**RATES FOR FREEDOM OF INFORMATION REQUESTS**

The following rates have been established for the fulfillment of FOI requests. The requestor must provide: (1) a 4GB or 16GB thumb drive and (2) a self-addressed return mailer with prepaid postage affixed. All requests must include a check made out to: White County Assessor.

Our CAMA software provider maintains a website that is updated with current assessment information on the last Wednesday of each month. Most requestors prefer that their requests coincide with the updates of our provider's website ([www.arcountydata.com](http://www.arcountydata.com)). For these reasons, we schedule fulfilling FOI requests beginning with the first Thursday after our vendor's website is updated. This schedule assures that all requestors will receive the same data around the same time each month. Please let us know in your request when you will need the information downloaded.

1. White County CAMA data request includes all individual parcel data in a Microsoft Access format. Not included are the parcel sketches and photographs. The file is less than 4GB in size.  
Cost: \$30.00
2. White County CAMA data request includes all individual parcel data in a Microsoft Access format and includes the parcel sketches and photographs. The files are more than 8GB in size.  
Cost: \$50.00
3. This office is not able to provide the GIS data; however, White County GIS data can be downloaded from the Arkansas Geographic Information Office geospatial portal, GeoStor ([www.GeoStor.Arkansas.gov](http://www.GeoStor.Arkansas.gov)) at no charge utilizing their site. Specific instructions provided by the Arkansas GIS office are as follows:

To get White County's parcels specifically, please follow this link  
[http://www.geostor.arkansas.gov/G6/Home.html?q=parcel+\(polygon\)](http://www.geostor.arkansas.gov/G6/Home.html?q=parcel+(polygon))

Once there, click the Parcel Polygon-County Assessor Mapping Program (polygon) link. This will take you to your download options. Please select "White" from the "Select a County" dropdown, then select your desired format (such as shapefile), coordinate system, and type in your e-mail address. Once this is complete, click "Request Data" and you should receive an e-mail with a link to download your zip file.

You may also download the parcel information that we have for the entire state by going to our FTP site, [ftp://ftp.geostor.arkansas.gov/Public\\_Statewide/](ftp://ftp.geostor.arkansas.gov/Public_Statewide/), and downloading the "CADAS\_PARCEL\_POLYGON\_CAMP" shapefiles.

Any problems you encounter with the GIS download should be directed to the Arkansas GIS.
